

IMPROVED

OUTPERFORMS THE COMPETITION

PM51 PERFORMER™

Product Description

Higher Toughness.
Higher Performance.

Performer™ blades are engineered for demanding cutting applications and extra hard-to-work materials.

Designed with a PM51 HSS tooth, these premium blades deliver exceptional toughness, high shock resistance, and long, reliable tool life.

The heavy tooth set combined with advanced AR tooth setting ensures a higher cutting rate while maintaining excellent wear and heat resistance.

This makes Performer™ an ideal choice for difficult-to-cut materials where consistent performance and durability are critical.

Available with POVII and PCVIII tooth profiles, Performer™ blades are built to perform under tough conditions and deliver reliable results across a wide range of industrial applications.

PM51 Performer – Higher performance!
